## HAZEMAG Used Machines

HAZEMAG, synonym for ruggedness and longevity. Being aware of this, our idea and contribution to sustainability is to completely refurbish used machines that have left the production process, and to offer these machines in top condition with O.E.M. warranty at attractive prices.

HAZEMAG can offer a wide range of used machines. Please rely on HAZEMAG expertise and our consistently high quality. Do not compromise!

We focus and respond to your individual ideas, needs and requirements. The whole refurbishment process of the used machine will be closely coordinated with you with the clear objective to meet your expectations. You are free to determine the scope of repair with options ranging from the classical "bought as seen" up to a general overhaul. You take advantage of a 1-year warranty for each refurbished second-hand machine.

### Acquisition

You intend to update your production process and benefit from recent technical innovation? Your currently installed HAZEMAG machine does no longer satisfy your needs? Your feed material and/or the needed product size changed, and you are interested in a different machinery type? Please do not hesitate to contact us. We will be glad to develop with you personally a feasible solution. We are at your service with our expert advice.

Before repair

After repair

### All advantages at a glance:

- complete refurbishment of your HAZEMAG machine
- focus on your individual ideas, needs and requirements
- 1-year warranty for each repaired second-hand machine
