Company

Partners in Productivity

- Headquarter in the USA, worldwide 10 subsidiary companies, offering individual solutions for every local market.

Sedište u SAD, 10 podružnica širom sveta, nudeći individualna rešenja za svako lokalno tržište.

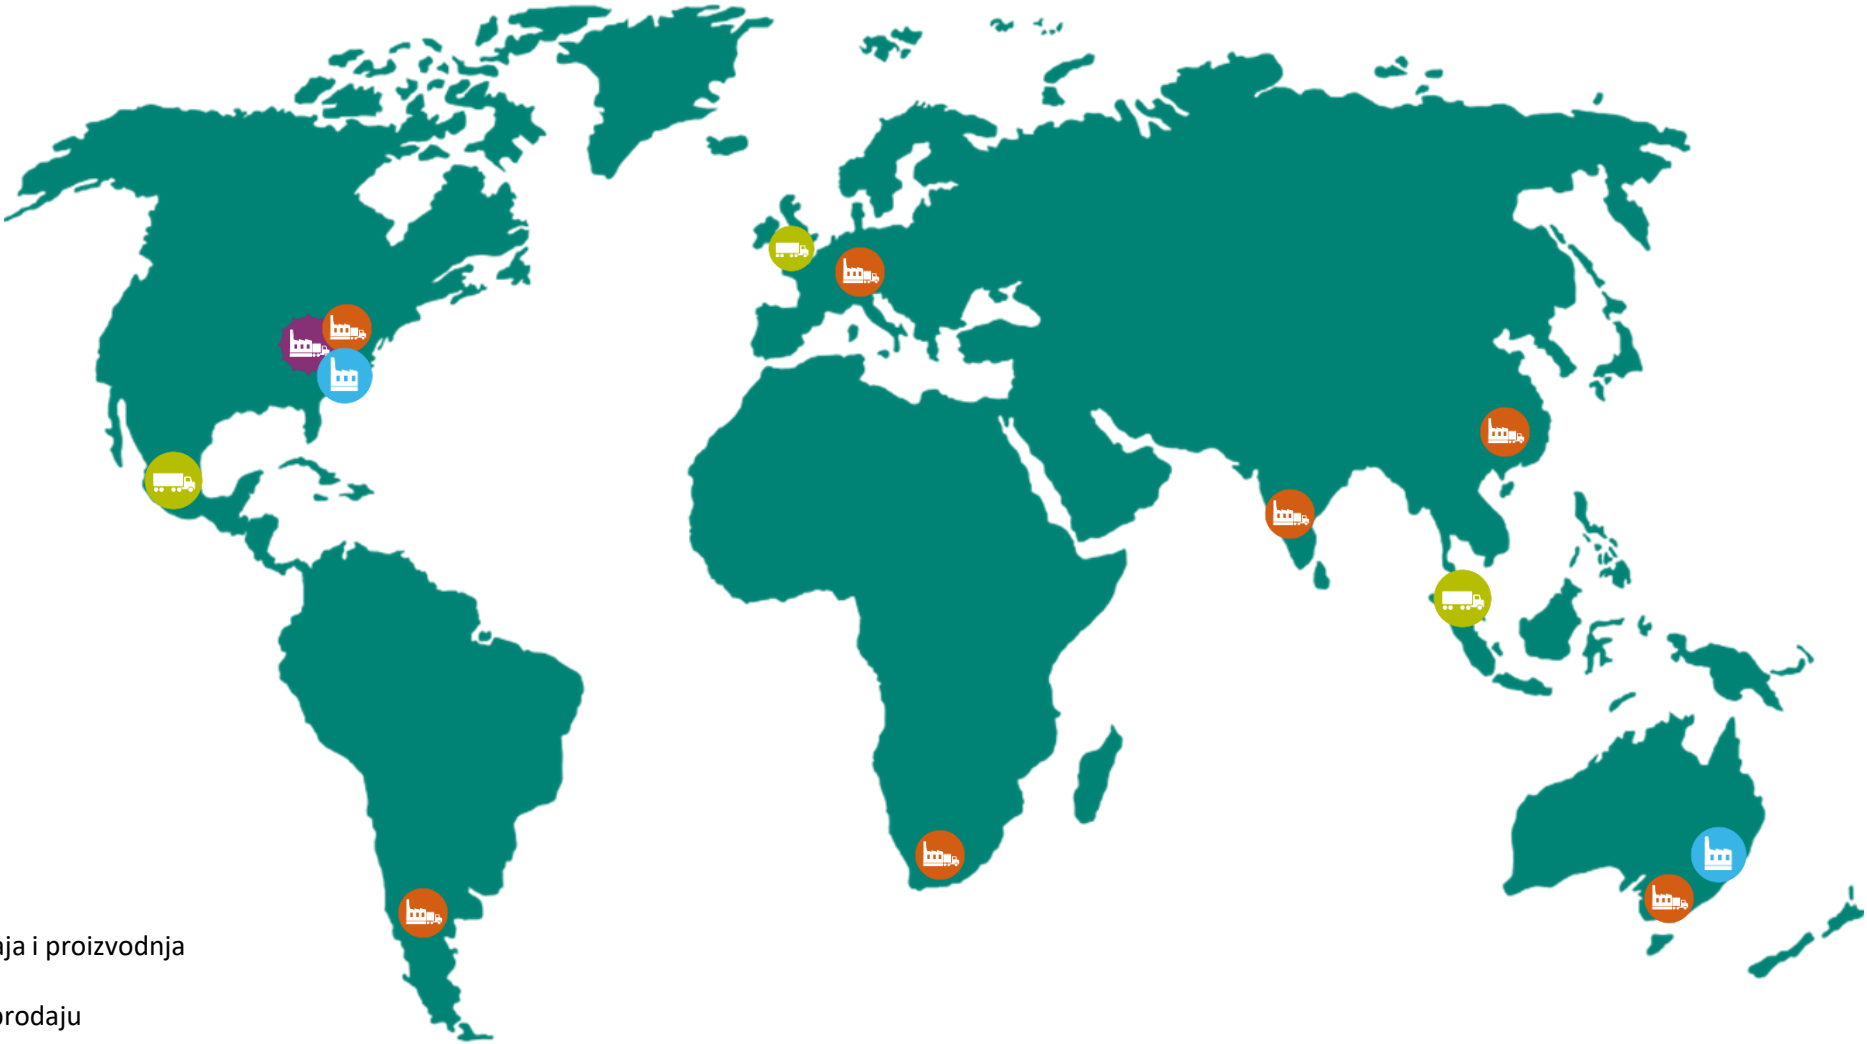

- A global net of distributors fulfills the demands of a big diversity of clients in more than 150 countries guarantees.

Globalna mreža distributera ispunjava zahteve velike raznolikosti klijenata u više od 150 zemalja sa garancijama.

- Cooperation with more than 1800 partners worldwide.

Suradnja sa više od 1800 partnera širom sveta.

Flexco worldwide

Headquarter - Centrala

Sales and Production - Prodaja i proizvodnja

Sales office - Kancelarija za prodaju

Production plant - Proizvodni pogon

Heavy duty industries - Teške industrije

- Mining - Rudarstvo
- Power plants - Elektrane
- Crushing and Screening plants - Postrojenja za drobljenje i prosijavanje
- Bulk cargo loading - Utovar rasutih tereta
- Pulp and paper industry - Industrija celuloze i papira
- Wood processing companies - Poduzeća za preradu drveta
- Asphalt plants - Asfaltne fabrike
- Construction and road equipment - Građevinska i putna oprema
- Cement plants - Fabrike cementa
- Foundries - Livnice
- Steel works - Čeličane

An aerial view of an industrial facility, likely a quarry or processing plant. On the left, a long, elevated conveyor belt system supported by a metal lattice structure extends across the frame. In the center and right, there are large, conical piles of greyish material, possibly crushed stone or sand. The background shows a lush green landscape with trees and fields under a clear sky. A semi-transparent teal banner is overlaid at the bottom of the image, containing text and a logo.

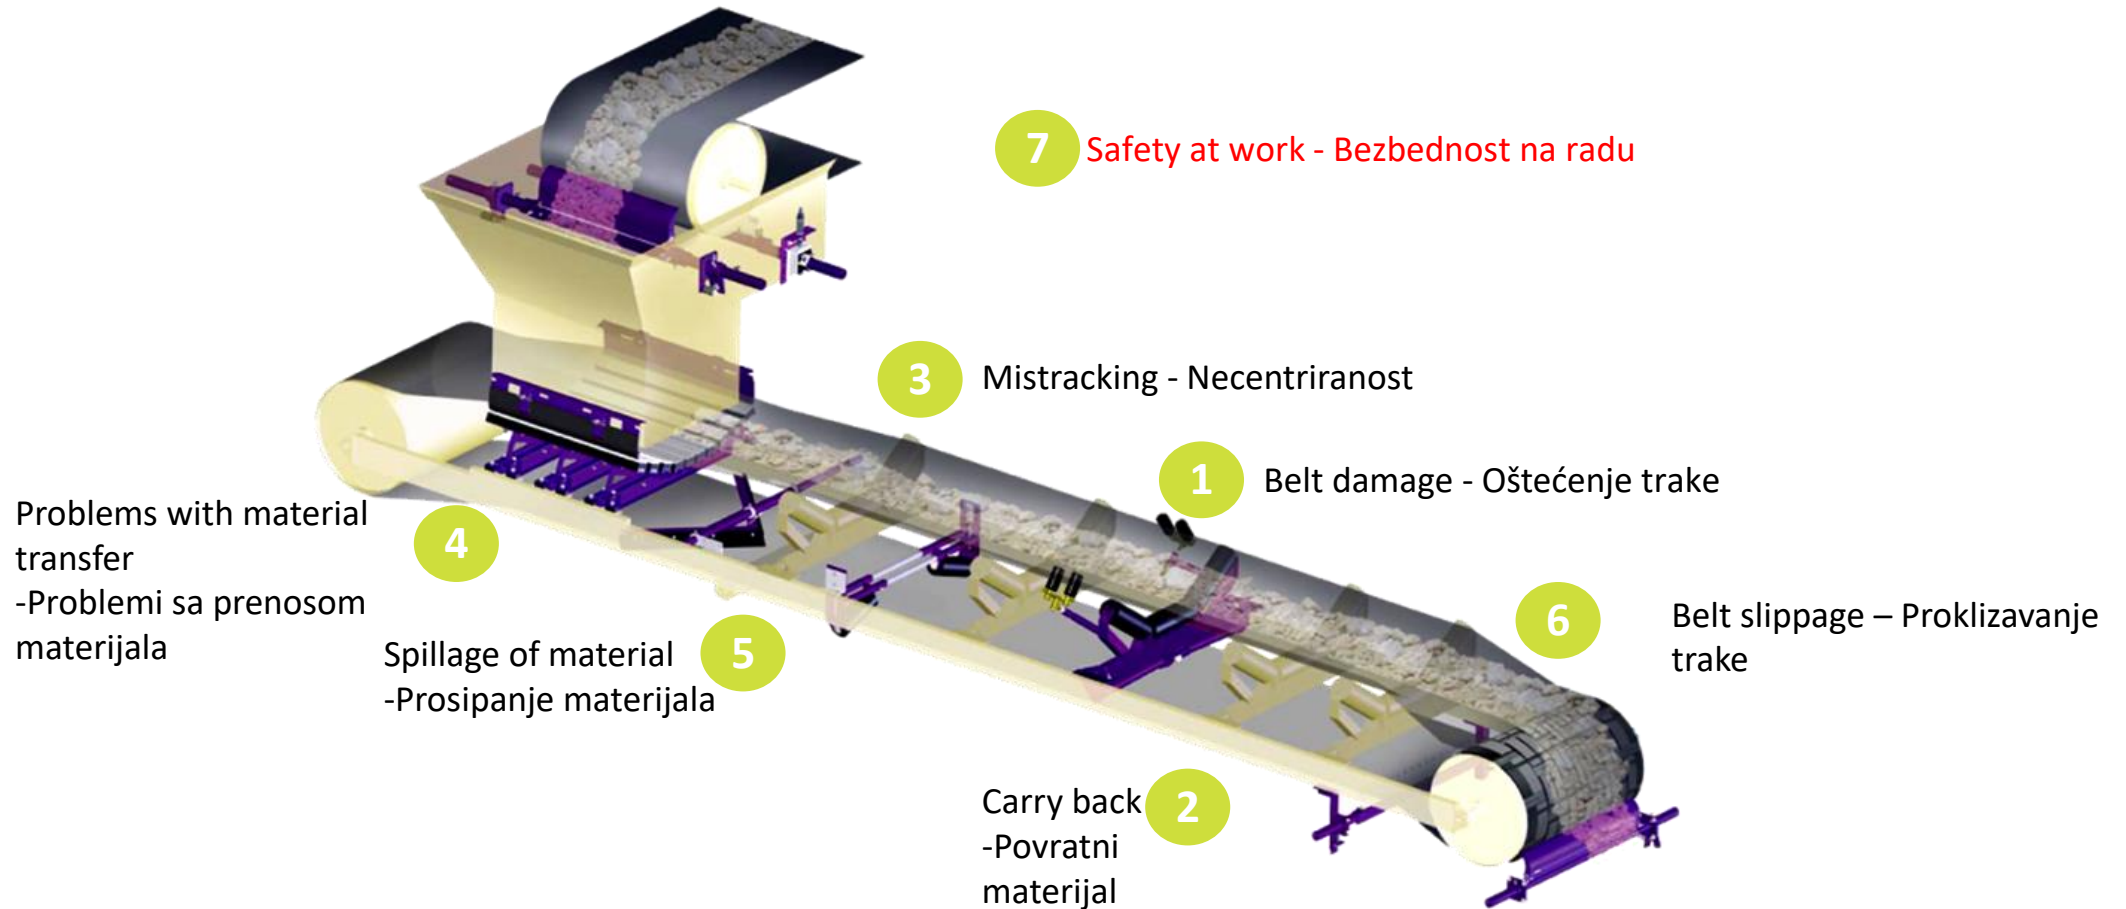

Solutions for heavy industries

Rešenja za tešku industriju

FLEXCO

Factors that influence productivity

Faktori koji utiču na produktivnost

Belt damage Oštećenje trake

- Torn or damaged belts increase the downtime of your conveyor system.
- Pocepane ili oštećene trake povećavaju vreme zastoja vašeg transportnog sistema.

FLEXCO

The Flexco Solution

Rešenje Flexco

- ✓ Mechanical belt fasteners
- ✓ Mehanički zatvarači trake
- ✓ Fast and safe
- ✓ Brzo i sigurno
- ✓ Reliable
- ✓ Pouzdano
- ✓ Cost-effective
- ✓ Efikasnot troškova
- ✓ Easy installation
- ✓ Laka instalacija

FLEXCO

Carryback Povratak materijala

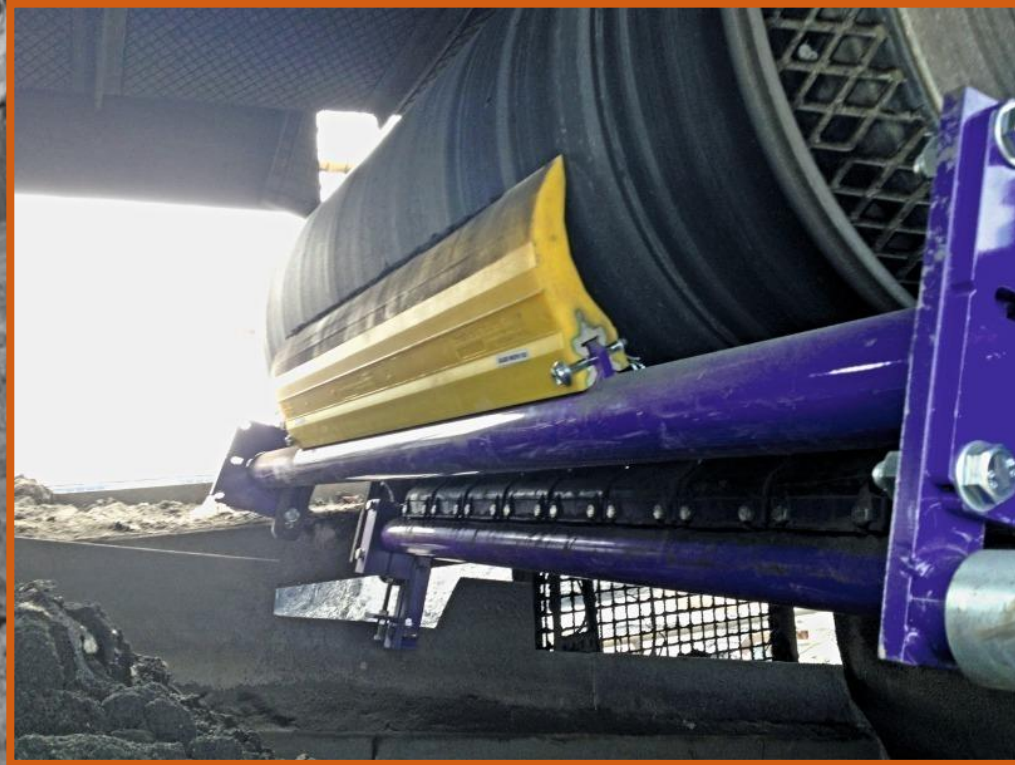

- Material carryback reduces productivity, increases costs and creates safety risks.
- Povratak materijala smanjuje produktivnost, povećava troškove i stvara bezbednosne rizike.

Scraper systems

Sistemi brisača

- ✓ Flexco belt scraper systems remove the material in the transfer area and minimize carryback.
- ✓ Flexco sistemi za brisanje trake uklanjaju materijal upodručju prenosa minimiziraju povratak.
- ✓ High efficiency
- ✓ Visoka efikasnost
- ✓ Low maintenance
- ✓ Nisko održavanje
- ✓ Durable
- ✓ Trajnost

FLEXCO

Mistracking - Necentriranost

- Belt misalignment can damage the belt as well as the support structure, which means:
- Necentriranost trake može oštetiti traku kao i potpornu strukturu, što znači:
- Safety risk
- Bezbednosni rizik
- Higher costs
- Veći troškovi
- Lower efficiency
- Niža efikasnost

Belt trainers Usmerivači trake

- ✓ A progressive centering station keeps even the most problematic on track.
- ✓ Progresivna stanica za centriranje drži i najproblematičnije na putu.

Belt surface Površina trake

- Heavy material and big lumps can damage the belt and cause high repair costs.
- Težak materijal i velike grude mogu oštetiti traku i uzrokovati visoke troškove za popravke.

Impact beds Udarna postolja

- ✓ Flexco impact beds protect the conveyor belts from severe damage.
- ✓ Flexco udarna postolja štite pokretne trake od težkih oštećenja.

FLEXCO

Spillage - Prosipanje

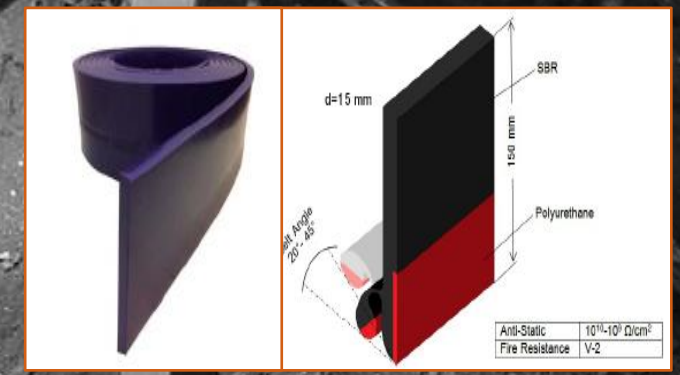

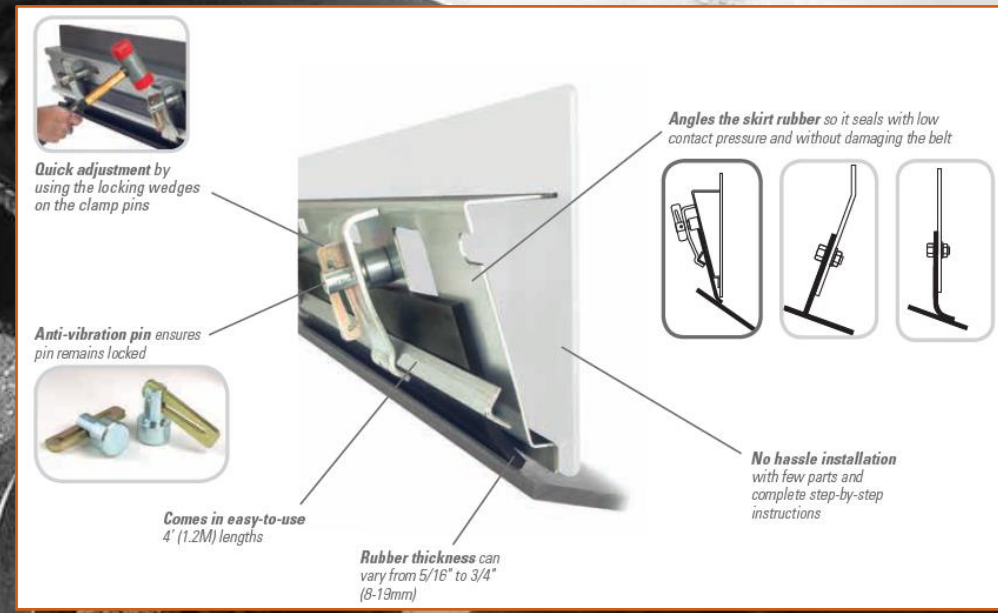

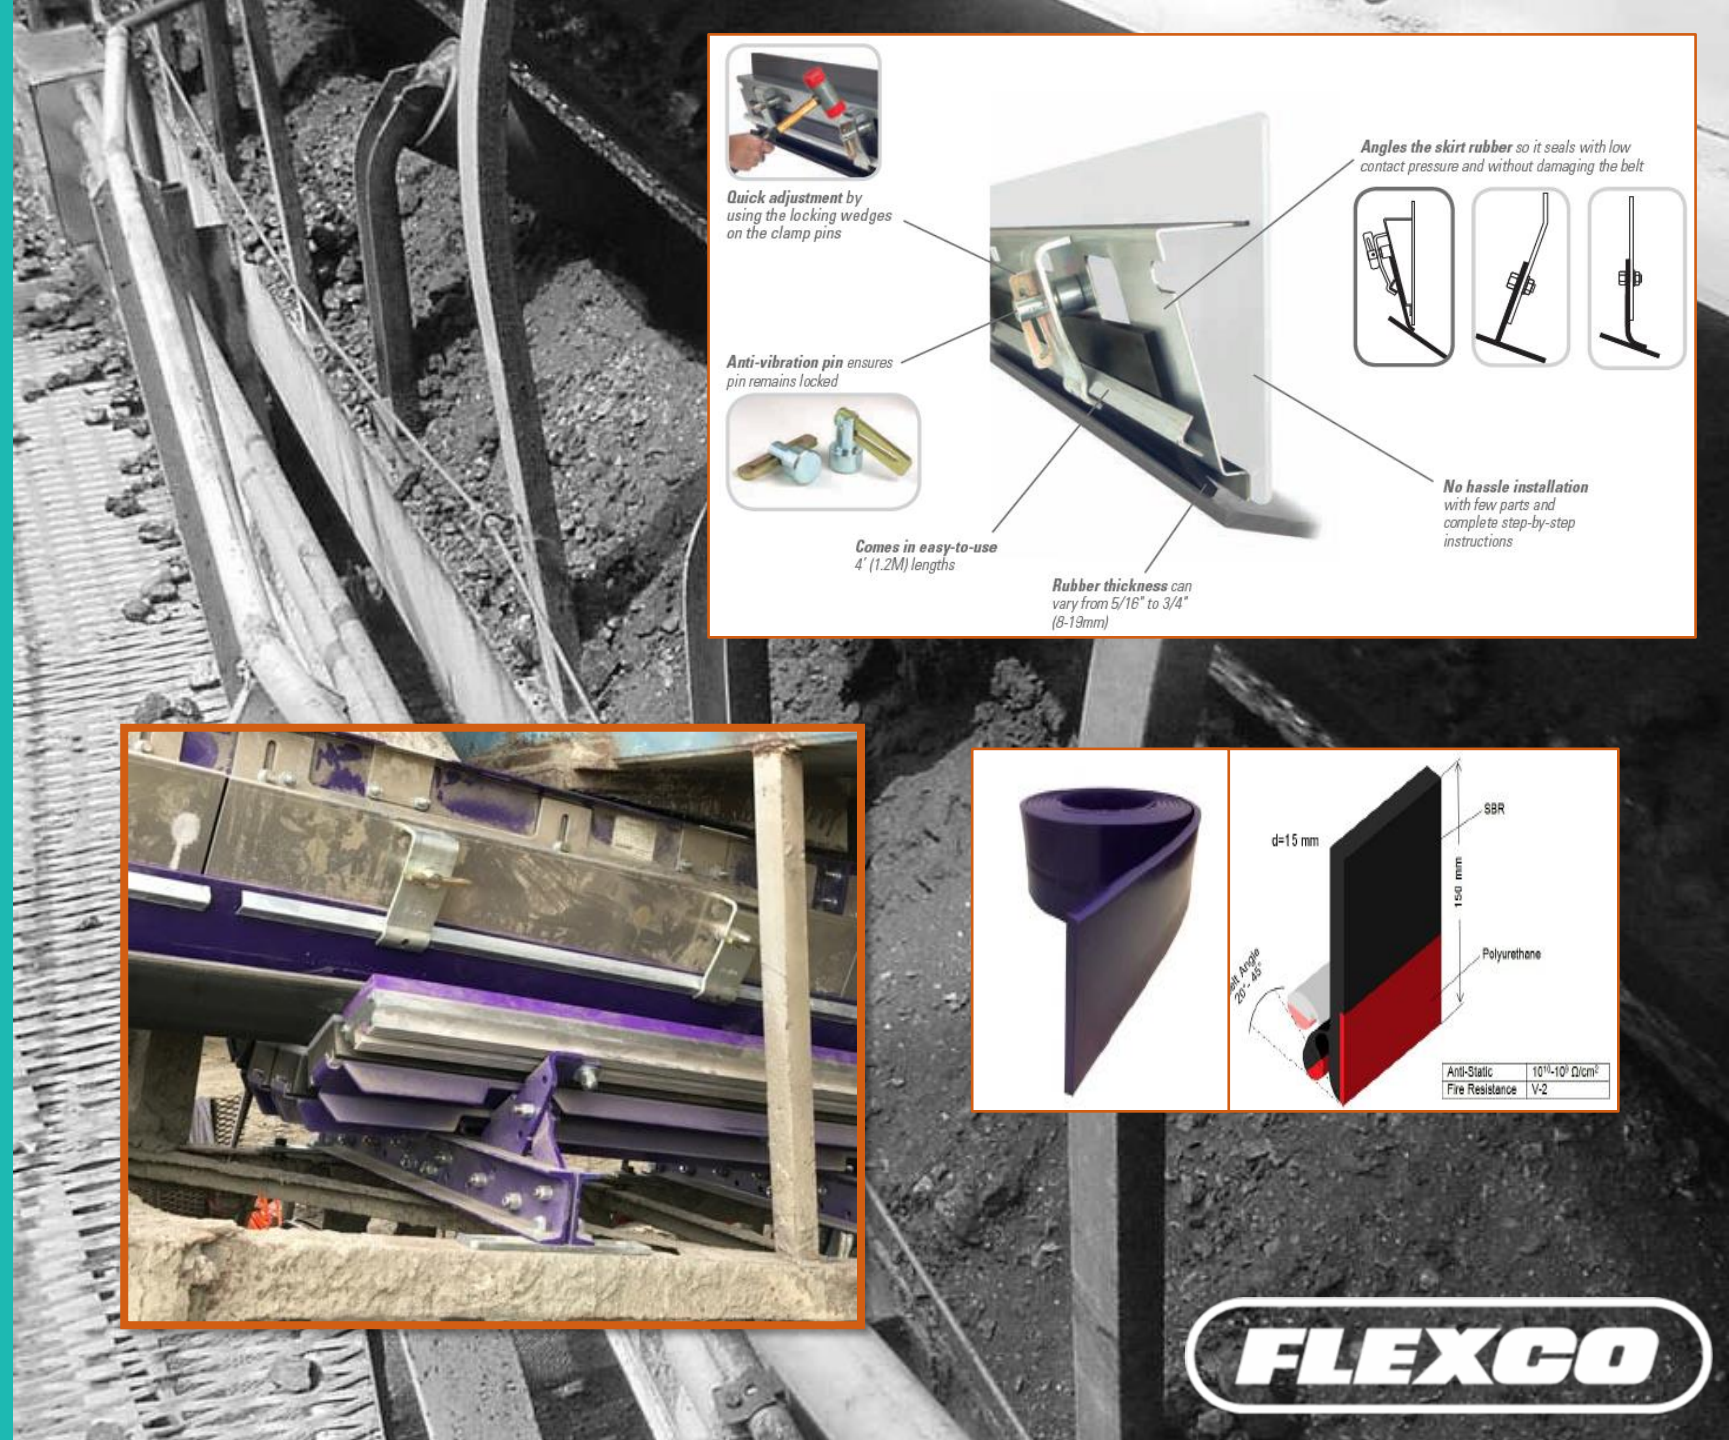

- Spilled material can lead to loss of material and dangerous dust concentration causing additional maintenance work.
- Prosuti materijal može dovesti do gubitka materijala i opasne koncentracije prašine što uzrokuje dodatne radove na održavanju.

Skirting systems

Sistemi lajsni

- ✓ Flexco skirting systems seal the transfer point and keep the material on the belt.
- ✓ Flexco sistemi lajsni zaptivaju mesto prenosa i drže materijal na traci.

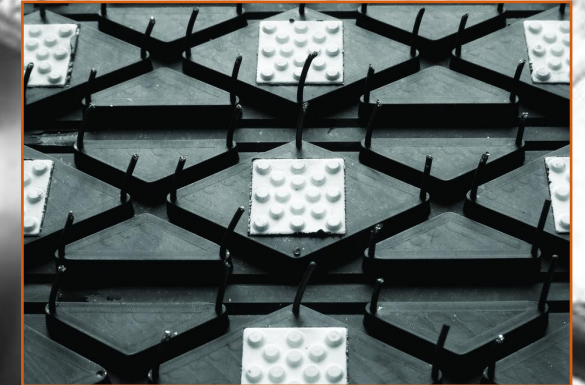

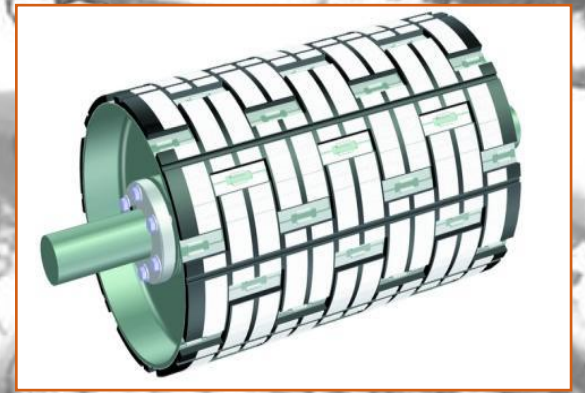

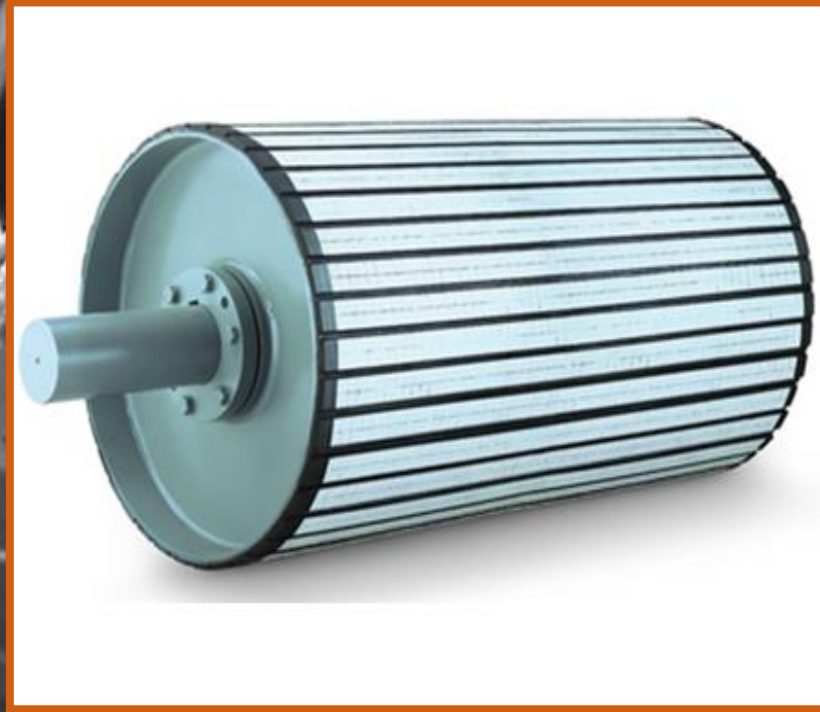

Slippage - Proklizavanje

- A worn-out lagging can cause slippage of the belt.
- Istrošena obloga bubnja može dovesti do klizanja trake.

Lagging - Obloga

- ✓ Flexco Lagging avoids the slippage of the belt.
- ✓ Flexco obloga eliminiše klizanje trake.

Safety at work

Bezbednost na radu

- Even the easiest maintenance can cause injury.
- Čak i najlakše održavanje može izazvati povrede.

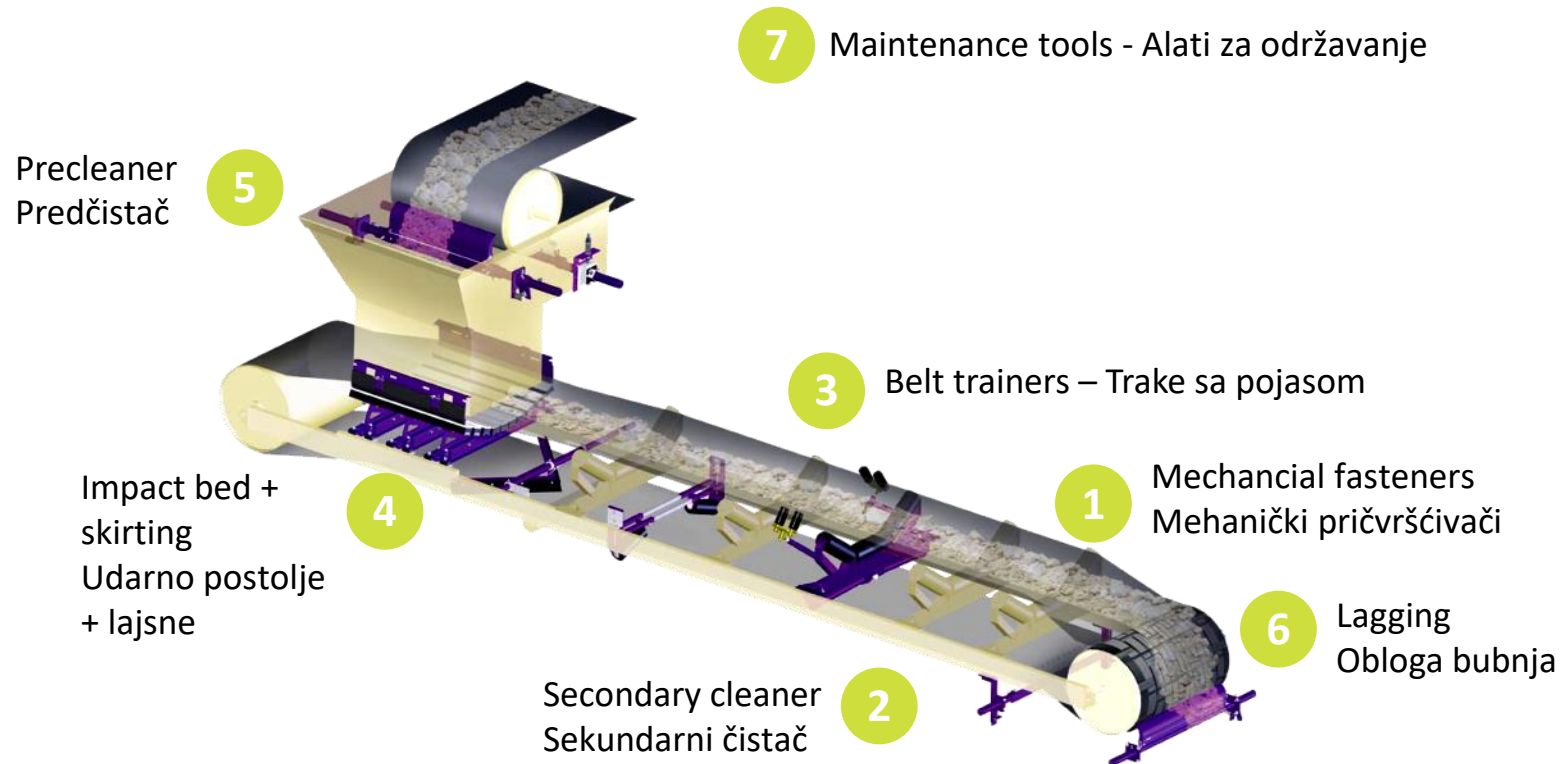

Maintenance tools Alati za održavanje

- ✓ The exclusive tool collection of Flexco is providing highest efficiency and safety standards.
- ✓ Ekskluzivna kolekcija alata kompanije Flexco pruža najviše standarde efikasnosti i bezbednosti.
